

# Planning for Shoreline Change in South Carolina

**Braxton Davis**  
Director, Science and Policy

*Shoreline Change Advisory Committee – September 14, 2007*

# Policy Option Development

- Identify broad policy options
- If Committee majority wants an option explored, a draft policy design template will be completed by a small work group and presented to full committee
- Once finalized, the Committee's level of support will be gauged, concerns will be documented
- Policy options will conclude each related chapter of final report.

# Draft Process for Policy Options

- Policy Description (Broad Concept)
- Policy Design (Goals/Timing/Scope)
- Implementation Methods
- Related Policies and Programs
- Estimated Costs and Benefits
- Data Sources/Methods/Assumptions
- Measures of Success?
- Key Uncertainties

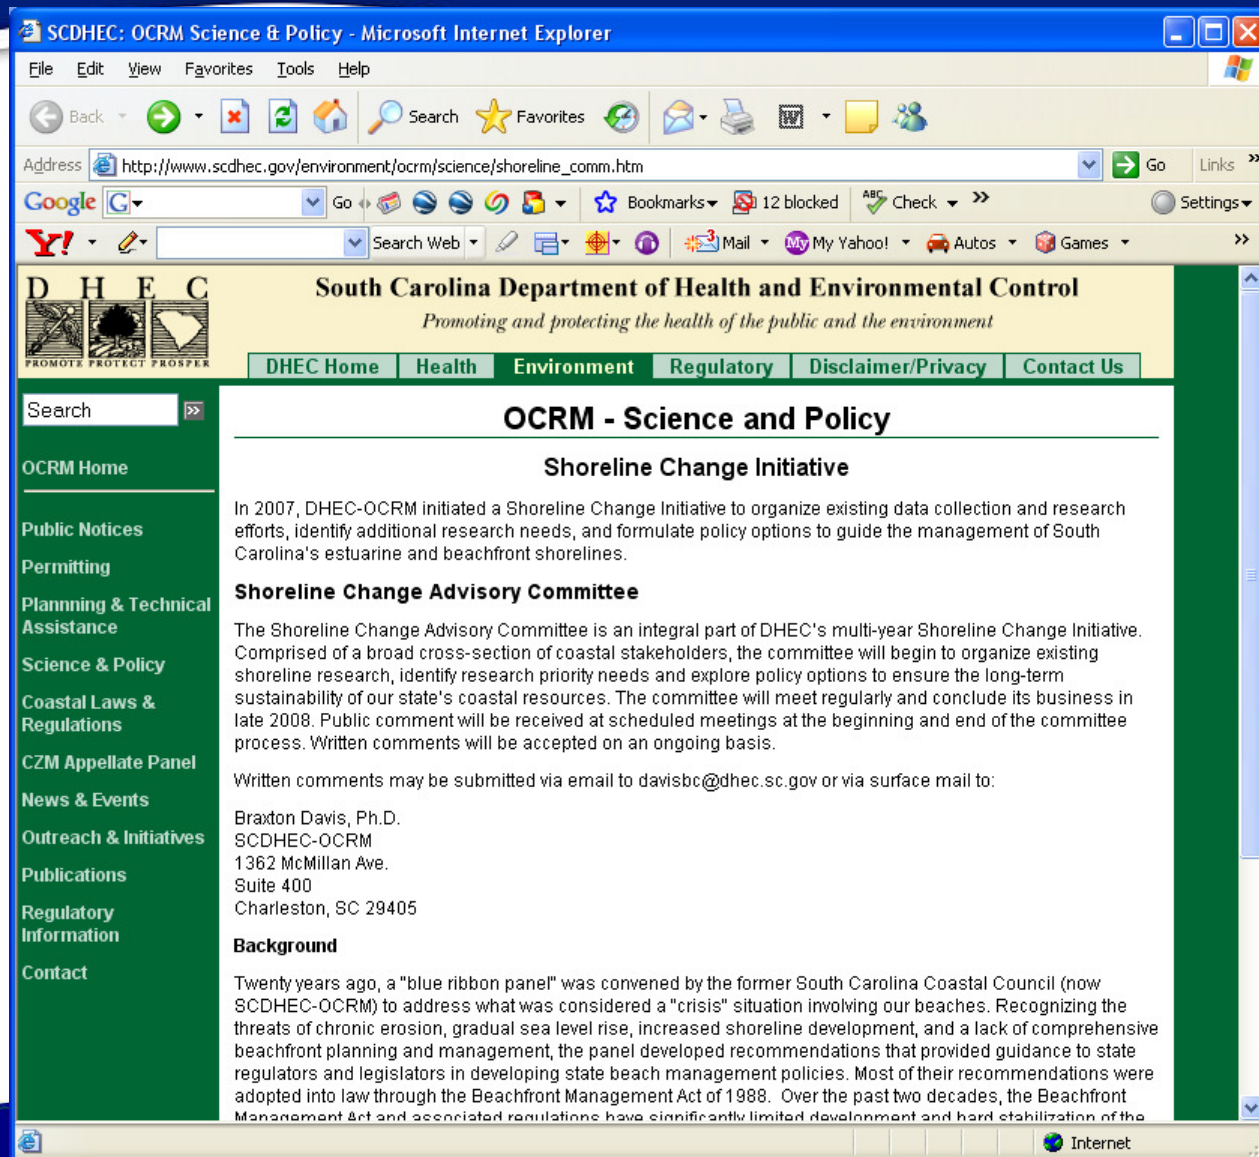

## At final meeting:

- Level of Group Support (Consensus, Majority, Minority)
- Concerns, Barriers to Consensus (if any)

# Final Report

- Executive Summary
- Introduction (Background, Goals, Process)
- Information/Research Priorities
- Policy chapters organized by meeting topic areas
  - Overview of existing policies, status and trends, and discussions of committee
  - Series of Policy Options (approved templates)
- Conclusions of Committee
  - Based on general discussions of how to move forward
- **Draft Report Review/Approval by SCAC**
